MEMORANDUM FOR: CSII/OPC

SUBJECT: Political Action Course

1. It is believed that the attached recommendation by Chief, ASTS for the development of a [REDACTED] is an excellent one. You will recall that the development of such a program was considered of utmost importance to OPC by the members of the Training Review Committee. Even though this program is a highly desirable one and one which we are anxious to implement, it will be noted in paragraph 7 that the controlling factor is the procurement of an individual with the necessary qualifications to organize and run such a program of instruction. We have been trying to recruit such a person for some time and to date have had no success. Any assistance you may offer us in obtaining such a person would be greatly appreciated and undoubtedly would greatly assist in the development of such activity within OPC. Your comments and suggestions are invited.
